"Velocity Leadership Consulting coaches listen. They care and they have professional experience from the employee, employer and client perspective. This insight is invaluable! I have a coach to give me support, push me through seemingly impossible challenges and encourage me to take steps I would never have thought possible on my own. Don't be afraid, get a coach and get on with the career (and life) you want."

— K. Morrow

"Before Velocity Leadership Consulting coaching, I was in a constant state of hopelessness and confusion. I'd lost sight of my dreams and identity, and allowed 'struggle' to be my focus, every day. My coach helped me develop a very successful plan to prioritize my passions and have maximum productivity in my career. The greatest feeling of all is that I don't have fear or guilt about living the life that makes ME feel the greatest. I've had higher and longer-lasting results than ever before."

— Carrie R.

"What a great coaching experience! I've spent this weekend much more relaxed and not stressed about other people's actions or inactions. It is quite strange to feel so different from such a simple (but obviously complex) exercise. I am much more relaxed about work challenges."

— Sandy L.

"After one session, I am already experiencing some shifts... I'm clearer, I've let go of a couple of things that were keeping me from achieving my business goals and things are starting to flow more easily. I'm thrilled!"

— Mary T.
