

REACH YOUR GREATEST POTENTIAL

On my journey to the Ironman World Championships as an amateur athlete, I discovered that the key to greater performance and effectiveness lies in identifying and addressing blind spots – repeated behavioral patterns that impede success. Using a professional coach and neurolinguistic programming as a tool, I achieved astounding results.

Implementing these innovative methods in my work as an International Professional Certified Coach empowered clients to change their own behavioral patterns with ease, realizing results at much greater velocity than with traditional coaching methods.

This led to the creation of Velocity Leadership Consulting's proprietary Power Pathways™ methodology, founded on proven principles of neurolinguistic programming. Within the C-suite, these pioneering techniques are catalysts for elevating leadership performance and effecting lasting change.

Our expert coaches work with self-aware CEOs and senior executives of rapidly scaling companies. Key Performance Indicators including EBITDA, cash flow, business development and sales are positively impacted, as well as talent acquisition, engagement, management, retention, and succession.

Drawing on 30 years of success as a corporate executive, 20,000 hours of senior executive coaching experience, and certification as a Master Neurolinguistic Programming Practitioner, I lead a team of professionally credentialed coaches, each of whom has filled senior leadership roles.

I deliver keynote presentations both nationally and internationally and have authored two books – most recently, *Unlimiting Your Beliefs: 7 Keys to Greater Success in Your Personal and Professional Life*. I am grateful for the experience of competing for eight years in international, ultra-endurance events, which infused in my own life the principles upon which my work is built.

KAREN BROWN
CEO, Business Psychology
Coach, Professional Speaker,
IRONMAN Finisher
